Dear Mr. Weel,

When children and families open the doors to Canuck Place, they are stepping into a place of overwhelming love, generosity, and kindness.

**Without you, Canuck Place simply wouldn't exist.** Without you, we would not be able to provide this beautiful sanctuary to critically ill children and their families. It's truly a home within a house, and the care provided extends far beyond just medical care.

Today I am sending you this letter to say thank you, from our community at Canuck Place to yours. Your company's generous gift of \$5,075.00 helps make all the difference for the children and families we care for.

But with support from Boilermakers Lodge 359 you allow us to create these moments. You help us give families priceless, meaningful time together, while we care for them.

Your company's compassion for the kids in our care is so important. That's why I wanted to send you this letter: because, on behalf of all of us at Canuck Place, we are so grateful for your generosity.

Again, thank you for your support of children in our hospice, and those we serve throughout the province. **You are an important part of their lives, too.**

With gratitude,

*Margaret McNeil*
