On December 1, 2022, the Boilermakers Lodge 359 Health and Welfare benefits plans and Employee and Family Assistance Plan (EFAP) will be moving to new providers. The health, dental, life and disability plans will be administered by Canada Life and the EFAP will be provided by Lifeworks. There will be no reductions or changes to your coverage or to your dependent's coverage.

After careful consideration of all alternatives, including the option to make no change to existing providers, the Trustees decided to make these provider changes to ensure Plan members are receiving exceptional customer service and accurate claims adjudication. Additionally, your extended health and dental claims will be paid by the same entity and information regarding your benefits will be available at the same member portal.

The Trustees objective is to provide Plan members with the best access to tools and resources to benefit your financial, physical, and mental well-being. This letter will provide you with additional details of how this change will impact you and what you need to do.

Additional information about Canada Life and Lifeworks and links to the benefits handbooks, claim forms, and provider websites can also be found on the Boilermakers Lodge 359 website. <https://www.boilermakers359.org/benefits-boilermakers359/>
